

# INDIAN BIBLES

The purpose of this website is to make God's word available in a tangible book in as many languages as possible to anyone interested and searching for truth. Over the course of twenty years of extensive travel in missions, we have discovered that many missionaries and foreign pastors do NOT have access to the best Bible God has provided for them in their own language. Many are not aware of the Bible version issue, others are informed but do not have access to a "holy bible" in their language. We buy old Bibles from the Philadelphia church age period (circa 1500-1900 A.D., preferably before 1880), scan them page by page into the computer and make them available for free download over the internet. Our aim is especially to help those in countries where it is forbidden to have, print or distribute a "holy Bible", or even carry one into the country. This is certainly the case in many communistic and muslim countries as well as many Roman Catholic state-church-dominated countries.

After we are able to get the holy Bible into a particular country, we organize Bible conferences for pastors, evangelists and Bible students to teach them sound doctrine. We have been able to do this in a variety of Roman Catholic, Muslim, Communistic and even apostate Protestant countries where the holy Bible of the Protestant Reformation has been replaced by "unholy bibles" from Egypt.

Anyone interested in ordering and receiving a tangible copy of a particular Holy Bible or portion of one (i.e. just John / Romans or a New Testament) may contact us using the contact form found on this website. Information concerning your whereabouts will be kept absolutely secure.

We appreciate your prayers as well as financial support for this ministry to supply those in closed countries with holy Bibles. Your support goes entirely to the printing, shipping and distribution of holy Bibles. See the contact form for more information.
